

Dust extractor VCE3600D

1-phase, motor power of 3.6 kW

Longopac dust bag system

H13 HEPA filter ensures 99.95 % particle capture $\geq 0.3 \mu\text{m}$, keeping air clean and safe

Non-marking 10-inch wheels that are construction site proof

The VCE3600D dust extractor is designed for floor grinding and other demanding applications where efficient dust collection is required. With a powerful 3.6 kW motor class, it meets higher performance needs. The model is H-Class certified and includes a cyclone system, a conical pre-filter, and a durable H13 HEPA filter. It offers

simple and intuitive operation thanks to accessible controls, a low noise level, and the Longopac dust bag system. The compact and lightweight design ensures convenient transport, supported by robust non-marking 10-inch wheels designed for tough construction environments.
